

Response to question on notice

Questions on Notice Paper No 14

05 December 2025

Question No. 751

Mr Andrew Braddock MLA: To ask the Minister for City and Government Services

1. Does the Government collect information on the amount of path damage that needs to be repaired as a consequence of construction work, where the damage was not intended to be caused by the construction work; if so, can this be provided for 2024-2025 for the length of paths damaged.
2. Of the path damage referred to in part (1), how much is still awaiting repair.

TARA CHEYNE MLA - The answer to the Member's question is as follows:

1. Roads ACT does not maintain statistics regarding path damage as a result of construction activity. When damage to a path is identified, and Roads ACT can attribute the damage to construction activities and an identifiable entity, compliance processes ensure the damage is rectified (either through City Rangers or Development Application compliance). If the damage can't be attributed to construction activities, then this would be fixed as part of the standard maintenance program.
2. N/A.

Approved for circulation to the Member and incorporation into Hansard.

Tara Cheyne MLA
Minister for City and Government Services

Date: 18/12/25

This response required 30mins to complete, at an approximate cost of \$66.92.
