2. The Education Directorate's [Curriculum and Academic Reporting Procedures for ACT Public Schools](#) requires schools to implement the Australian Curriculum Languages learning area, and:

- in years 3 to 6, provide students with a minimum of 60 minutes per week of languages education; and
- in years 7 and 8, provide students with a minimum of 150 minutes (or one line) per week of languages education.

High schools and colleges offer language education programs as an elective subject for students in years 9-10 and 11-12. Students who wish to continue studying a language that is not offered at their local public high school or college are supported to access language education outside of their Priority Enrolment Area (PEA) where possible, as part of the Education Directorate's [Compulsory Education Student Enrolment and Attendance Policy](#) and the [ACT Public Schools Enrolment Procedure \(Kindergarten – Year 12\)](#). Language courses are recognised in the criterion for the out-of-area enrolment process, subject to school capacity. Where a place is not available, students may be able to access language learning through online or shared programs across ACT public schools.

Students wishing to study Chinese as part of their ACT Senior Secondary Certificate can study an external Chinese course through the Australian School of Contemporary Chinese, as a specialist education provider registered with the Board of Senior Secondary Studies.

Students in ACT colleges were previously able to access other selected external language courses via CIT Solutions as part of their ACT Senior Secondary Certificate. Following the recent closure of CIT Solutions, CIT has confirmed it will provide language programs for Year 12 students to complete their courses in 2026, but it will not be taking new enrolments for 2026.

At this time, there are no plans for the Education Directorate to provide a centralised senior secondary language program. However, the Directorate continues to explore ways to strengthen continuity of language education pathways across school years through the [Languages Education Action Plan \(LEAP\)](#).
